BEACH CONSERVATION

On Feb. 2, trucks unload Christmas trees at High Pines.

2 trucks with approximately 500 trees at High Pines.

By Neal Merry

Since Christmas we have been receiving over 1500 trees weekly. 2000 trees came from Quincy, 500 from Brockton, 1000 from Weymouth. We expect up to 4,000 more from Marshfield. All trees are donated and the donor provides transportation. We have 2 stockpiles; one at the bridge

parking area and a much larger one at pole 60-61 (High Pines).

During weekday patrols conservation officers have distributed a fence of your trees on the ocean face of the bald high pines dunes.

This will be the largest tree effort yet; we'll be calling on volunteers later this month.
